Texas is as well known for its diversity of landscape and culture as it is for its enormity. But West Texas, despite being popularized in film and song, has largely been ignored by historians as a distinct and cultural geographic space. In *West Texas: A History of the Giant Side of the State*, Paul H. Carlson and Bruce A. Glasrud have assembled a diverse set of essays covering the grand sweep of West Texas history from the ancient to the contemporary.

BENJAMIN COMEAU'S drawings provide a unique window into life in the POW camps, and certainly put the lie to the propaganda photographs sent to the world press by the Chinese government during and after the war. The Chinese propaganda campaign showed well-fed, warm and happy prisoners playing games and making music. Mail was allowed to be received and sent from the permanent camps but was carefully watched, and letters that were critical of food, treatment, or conditions often resulted in "misplaced or lost" future letters. Many of the POWs resorted to writing the opposite of what was really intended. Sergeant Comeau, in his letter to his parents of November 1952, wrote that he was getting good hot food, sugar and tobacco. He weighed 87 pounds when he was released.
